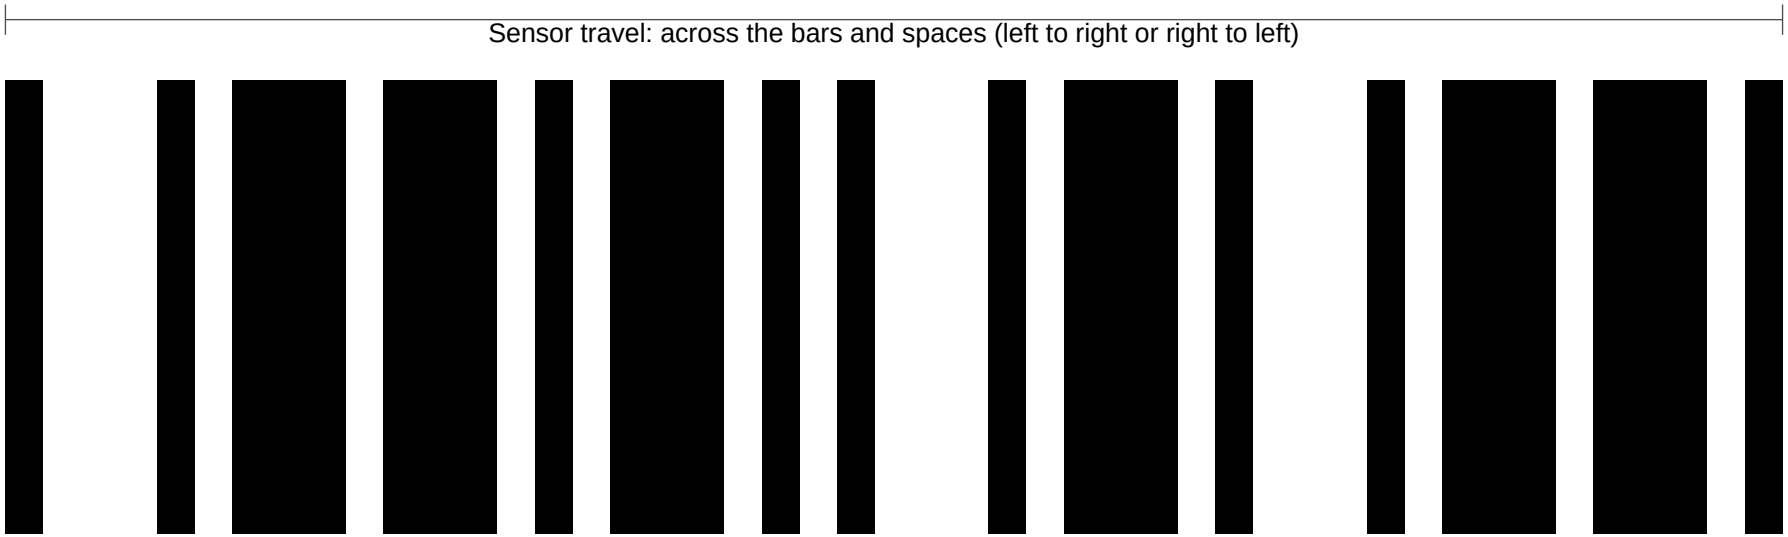
AAI10 / Barcode A / Large

Calibration print - derived from the supplied sample. Not a confirmed course-size specification.

PRINT: A4 landscape | Actual size / 100% | One page per sheet | No Fit / Shrink

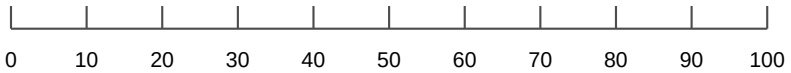
First-to-last bar: 235 mm | Narrow: 5 mm | Wide: 15 mm | Bar height: 60 mm



Keep the white space before and after the bars. Tape only outside the sensor path.

Place beside the black route line so only the offset barcode sensor crosses this pattern.

PRINT SCALE CHECK: the ruler below must measure exactly 100 mm.

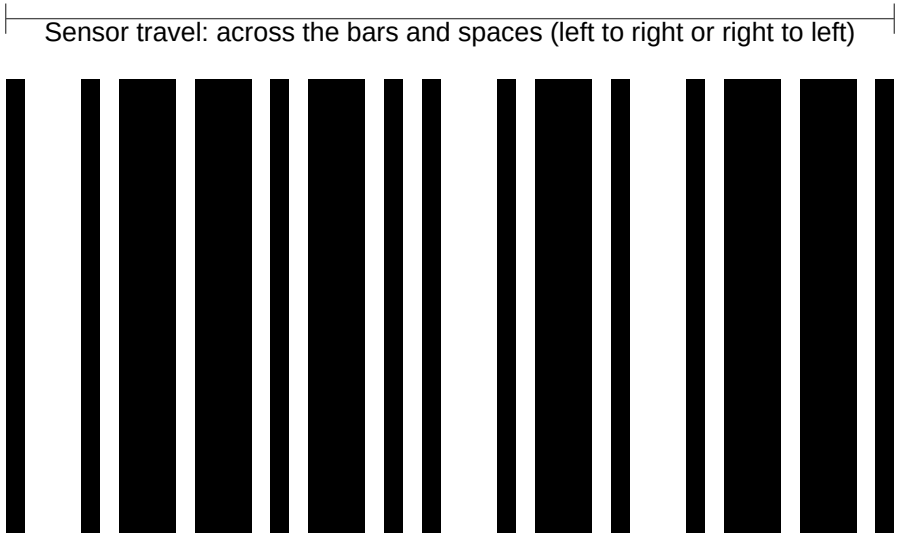


AAI10 / Barcode A / Small

Calibration print - derived from the supplied sample. Not a confirmed course-size specification.

PRINT: A4 landscape | Actual size / 100% | One page per sheet | No Fit / Shrink

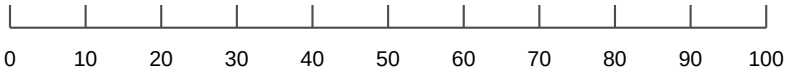
First-to-last bar: 117.5 mm | Narrow: 2.5 mm | Wide: 7.5 mm | Bar height: 60 mm



Keep the white space before and after the bars. Tape only outside the sensor path.

Place beside the black route line so only the offset barcode sensor crosses this pattern.

PRINT SCALE CHECK: the ruler below must measure exactly 100 mm.



AAI10 / Barcode Z / Large

Calibration print - derived from the supplied sample. Not a confirmed course-size specification.

PRINT: A4 landscape | Actual size / 100% | One page per sheet | No Fit / Shrink
